

HOLIDAYWORKS
AFRICA TOURS AND SAFARIS

SAFARI VEHICLES

All vehicles will be sanitized before and after each use with a special focus on high traffic areas (Door Handles, Window Buttons and charging points)

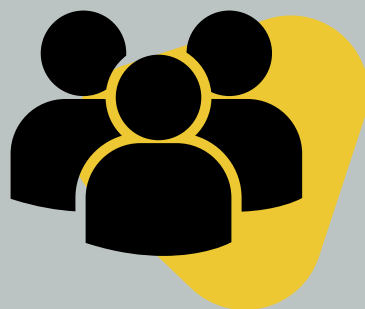

HAND SANITIZER

All Safari Cruisers will have at least one bottle of antibacterial sanitizer for all guests. All guides and support team will have their own hand sanitizers to maintain hygiene during your safari and excursions and when setting up drink/-meal stops.

VEHICLE CAPACITY

Resources permitting, we shall provide extra vehicles such that each vehicle will be limited to four guests with the middle row remaining free to provide sufficient distance between groups/guests. Groups of 6 traveling together can use one vehicle but no one will sit next to the driver.

COVID-19

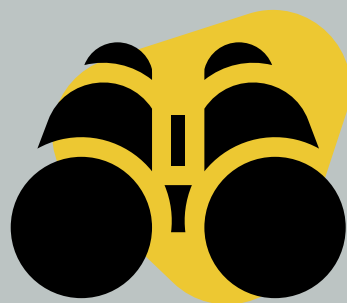

DRIVER GUIDE SAFETY

We have put together a high-quality and robust system for our vehicle care and safety protocols to ensure our guests are handled with the very best care from your arrival to departure time.

ENJOY AND STAY SAFE

BINOCULARS AND GUIDEBOOKS

Please endeavour to bring your own binoculars. Guidebooks and welcome packs may be provided by Afritrek Holidays. Guides will not share their binoculars unless disinfected each time. Guides will not hand their guide books to guests but can illustrate from a safe distance.

LUGGAGE HANDLING

Upon arrival, your assigned driver guide will help you sanitize and assist sanitize the handles of your luggage with anti-septic-wipes before loading them into the car

WATER BOTTLES

On arrival we shall offer you a metal complimentary water bottle that is sealed and solely for your private use throughout the trip. Refilling will be done at camps and lodges refilling stations, each will of course offer sanitizer for you to clean up your hands before and after use.
